What's an AI Agent?

Think of an AI Agent as a smart helper living inside a computer system, ready to help out 24/7.

They're all about grasping what you're after, making smart choices and taking action, using all the relevant data they need.

Want to see what that looks like?

What are AI Agents?

AI Agents are smart digital helpers that use language models and tools to get things done. They understand what you ask, decide what to do and take action.

You'll find them across apps, helping teams automate task, support customers, and work smarter.

Curious how the magic happens?
