

What are Ad Agents?

AI agents are smart language helpers that use language to help users.

take action.

they is to get things done. They and others do it.

support customers, and work at tasks that are customized to their needs.

Stay active

you'll find them across apps, helping teams

ask, decide what to do and understand

Agents Work How It

detection to understand requests.

A copy of the decision and order can be found on the project's website.

Tap into what you need, request what you want.

act across applications and contexts.

action prompts to guide agents

Anger stands simple path: understanding the simple path: anger stands
